## THE CARIBBEAN JOURNAL OF MIXED METHODS RESEARCH

Online ISSN 0799-5970

The Caribbean Journal of Mixed Methods Research (CJMMR) is an academic, peer-reviewed, and multi-disciplinary open-access journal focused on studies utilizing mixed methods research (MMR) approaches. The aim of this journal is to provide a platform for scholars and postgraduate students in the Caribbean region to disseminate research that addresses critical issues in the region. These issues may include, but not limited to, research on COVID-19 and its impact on the Caribbean. We invite manuscripts for consideration for publication in this second volume.
