

Mixed Methods International Research Association – Caribbean Chapter

NEWSLETTER

MESSAGE From the President

Dear Members, Colleagues and Friends

The aim of this newsletter is to keep members and other interested parties informed and abreast of significant events, activities, features, and special notices. I am proud to report that during my tenure as president, our Caribbean Chapter has continued to cater a high level of diverse and viable quality offerings for our research colleagues, both fledgling and experienced. We have had an exciting, eventful year with nine events to date, and more to come. These include two Chulha Chats doctoral sessions and one seminar that featured Caribbean researchers, five international and Caribbean combined research workshops; and a 'Munch and Mingle' social affair. This issue will highlight only events since our last issue in June. In addition, we are proud to have proposed and been accepted to host a virtual Caribbean Symposium at MMIRA's upcoming Global Conference in August 2022. We also hope to wrap up this season with an exciting social, 'Lunch and Labrish'. Since I will be demitting office in July, I am using this forum to also express sincere gratitude to all my standing committees and team members who worked arduously and committedly to ensure that we have had a rich and fulfilling season, July 2021 to July 2022. I wish to further extend a special welcome to the incoming president and president-elect. Enjoy the highlights below.

Ingrid Hunt-Anderson, PhD.
President, MMIRA-CC

SPECIAL NOTICES

SOCIAL MEDIA

We now have an Instagram page. Please visit us @mmira.cc.

Also please note that we have a new Facebook page @mmira.cc.

'Linked In' will be coming soon.

MEMBERSHIP

Membership fees are being deferred until the payment system has been installed. If your membership has expired, you will be charged retroactively. We look forward to the resolution of this in the very near future. You may still become a MMIRA-CC member (without immediate payment) by going to our website www.mmiracc.com. Then click 'Membership'/'Join Us' to register or renew your membership.

CELEBRATING MEMBERS!

- June, 2022- Special recognition to Dr. Zhane Bridgeman-Maxwell on her award of Doctor of Philosophy in Chemistry from Cave Hill, UWI. Congratulations also, to her supervisor, Dr Leah Garner-O'Neale.
- Aug, 2022- Kudos to Dr. Sharon Jaggernauth and Dr. Bridgeman-Maxwell who will be presenting their mixed methods research at the upcoming MMIRA Global Conference.

UPCOMING

MIXED METHODS CARIBBEAN SYMPOSIUM,

August 3-4, 2022

The Chapter is proud to have been accepted to host a Caribbean Symposium at MMIRA's Global Conference (in August) on the theme *Making Positive Vibrations in Caribbean Mixed Methods Research: Fostering Inclusion, Diversity and Resilience through Innovative Approaches and Perspectives*

The presenters include Drs. Sharon Jaggernauth (moderator), Ingrid Hunt-Anderson, Janielle Matthews, Vimala Kamalodeen, Loraine Cook and Claudette Fong-Kong.

***See conference registration links**

SOCIALS

Members, look out for the Chapter's next social luncheon, a virtual 'Lunch & Labrish' to be held soon in July. 2022.

MMIRA GLOBAL CONERENCE, August 3-4, 2022

*Registration is now open

MMIRA Non-members: <https://www.eventbrite.com/e/307228146657>

CHULHA CHATS!!

Scintillating Chulha Chats, sessions 1 and 2, were offered in January and March, 2022 consecutively. The idea of Chulha Chats is an authentic Caribbean practice, that was creatively adapted and organized by our Professional Development Committee, chaired by Dr. Vimala Kamalodeen. The focus of these sessions involved providing a virtual forum whereby fledgling and experienced mixed methods researchers and supervisors could engage in open conversations with diverse Caribbean doctoral students or recently achieved doctorates. Both sessions were highly successful, each attracting over 100 attendees. Sessions were skilfully hosted/moderated by Dr. Leah Garner-O'Neale from the Cave Hill, UWI campus, who ensured that they moved beyond personal introductions and sharing of knowledge to heightened, interactive discussions of research designs, methodology, paradigmatic and philosophical approaches and challenges encountered in the research process, among other things. The attendees just could not get enough!

CHULHA CHATS
SESSION 1
WITH CARIBBEAN PHD CANDIDATES

Sandra Dee George
UWI, St. Augustine,
Trinidad

Dr. Leah Garner-O'Neale
Host,
UWI, Cave Hill, Barbados

Dr. Thisbe Lucas-Usher
University of Belize,
Belize

18TH JANUARY 2022
12-1 PM EST/ 1-2PM AST

TABLE DISCUSSIONS

Are you currently conducting mixed methods research?
You are invited to hear about mixed methods designs that have been used in PhD dissertations from current and past students.

Registration Link: <https://forms.gle/d2cxNmdKaK6RMiCB9>

For Website

CHULHA CHATS
SESSION 2
WITH CARIBBEAN PHD CANDIDATES

Zhané Bridgeman-Maxwell
UWI, Cave Hill
Barbados

Dr. Leah Garner-O'Neale
Host,
UWI, Cave Hill, Barbados

Miguel Ison
UWI, Mona,
Jamaica

8TH MARCH 2022
12-1 PM EST/ 1-2PM AST

TABLE DISCUSSIONS

Are you currently conducting mixed methods research?
You are invited to discuss mixed methods designs that have been used in PhD dissertations by current and past students.

Come let's chat with two mixed methods researchers about their experiences!

Registration Link: <https://forms.gle/Z2zNWmVCVEYugx3NA>

*I'm loving the session!
Fantastic work at this Chulha Chat!
Loving the synergy among these conversants!
Excellent presentations!
mixed methods can be likened to mixed farming...
Excellent visuals and analogies!
(Extracts taken from Chulha Chats 1&2)*

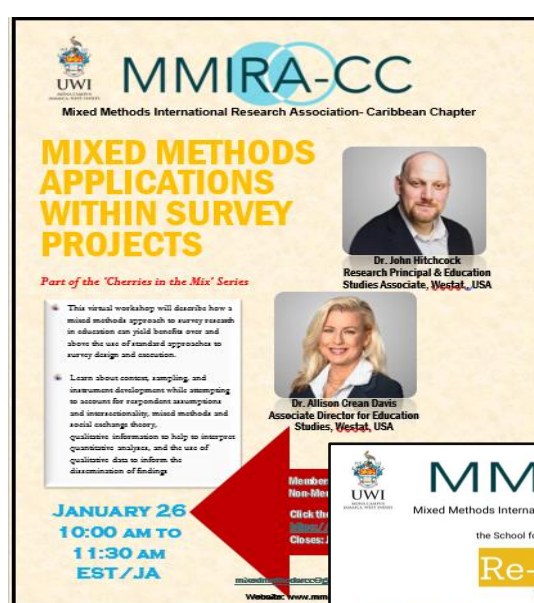

RESEARCH NUGGETS: FEATURING CARIBBEAN MM RESEARCHERS

Matthews, J. Z. (2022). Two Different Stories: A Mixed Methods Investigation of Crime in Antigua and Barbuda. (2) 1, 270-301. *The Caribbean Journal of Mixed Methods Research*. University of the West Indies. Jamaica. DOI:10.37234/CJMMR.2021.0201.A10

We invite Caribbean MM Researchers with **recent** publications to be featured in this newsletter. If you would like your MMR publication to be featured, send the full reference, in APA format with the DOI, if available, to our email mixedmethodsrrcc@gmail.com. **Make the Subject line- For Newsletter 'Research Nuggets'.**

HIGHLIGHTS OF 'CHERRIES IN THE MIX' WORKSHOP SERIES

Through the efforts of our Conference and Special Events Committee, chaired by Dr. Hunt-Anderson, the Chapter provided a diverse and exciting series of four workshops offered between January and April, 2022. These were facilitated by expert international and Caribbean MM researchers affiliated with varied educational institutions. Dr. Alison Crean and John Hitchcock, Director and Principal Researcher in educational studies respectively, at WESTAT, USA, initiated the series with a Survey Applications workshop that walked us through the avenues of developing a validated and reliable large-scale survey instrument using mixed approaches. Professors Sandra Shamroth Abrams, Elena Forzani, and Tony Onwuegbuzie of St. John's, Boston and Cambridge Universities respectively, along with an expert team, introduced us to Re-IMAGINE, a movement of new innovations and perspectives in Black methodologies in education. The third workshop, hosted by Dr. Sharon Jaggernauth of the University of the West Indies, Trinidad, and facilitated by Dr. Peggy Shannon-Baker and Dr. Ingrid Hunt-Anderson of Georgia Southern University and the University of the West Indies, Jamaica, respectively, provided new insights, with exemplars, into how a Qualitatively focused MMR study might be articulated and provide deeper understandings of the research problem or concern. To complete this 'cherries in the mix' workshop series, Drs. Elizabeth Kutscher of George Washington University and Bephyer Parey of University of the West Indies, Trinidad collaborated in teaching us the rudiments of how to develop codes, categories and themes in the qualitative component of the MMR that will also advance the integrity of the MMR process. The general consensus, 100% of feedback, was that attendees of these workshops "absolutely" wanted more!

*Thank you for this very informative workshop
it is never boring hearing you speak about what you
are passionate about*

It was a great discussion

*Really appreciated the explanation of how Quant
methods and Qual methods combine to provide a
truer picture of what is really going on!*

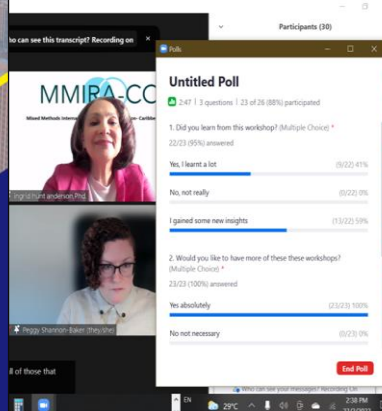

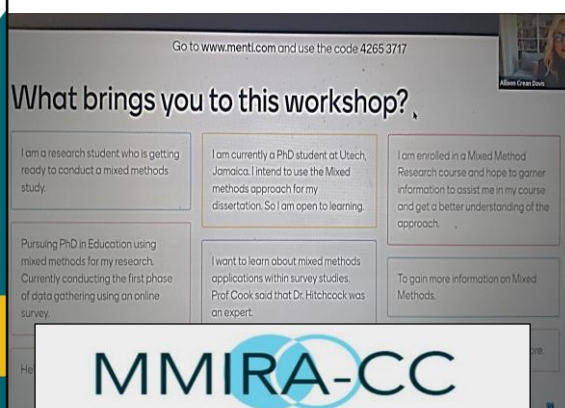

*Excellent Presentation and feedback to the various
questions*

A very rich presentation

Thanks for an excellent session!

Thanks very enlightening

Very good. thanks much!
